Re: Mesa Pizza by the Slice, 1440 West Lake St, Minneapolis, MN 55408

Dear Doc,

Attached is a letter I wrote back in January of 2007. We have just completed our third remodeling project in the Twin Cities, all with EDS Builders. Even though we competitively bid the new Mesa Pizza on Lake St, EDS Builders and his subcontractors always stand out and won the job.

What I said in 2007 still holds true today- his work and his subs build with passion, honesty, and quality. EDS brings to the table a unique construction style that adds true life to our restaurant. It is a freedom for all of us at Mesa Pizza to crest, not just build a place. The great job that EDS Builders did constructing our restaurant gives our customers and me a "feeling", an "uptown ambiance" that brings people in and makes us a success.

I look forward to our next adventure.

Sincerely,

David Hathaway
Mesa Pizza
